- **Cloud & Applications:** Microsoft 365; Google Workspace/Google Apps; Sycamore; RenWeb; SchoolMinder; Edline; SaaS administration and support
- **User & Operational Support:** Clear end-user instruction; technology planning; website and email administration; PBX and voicemail systems; cost-conscious implementation

PROFESSIONAL EXPERIENCE

Assistant Administrator, Secondary Teacher, & IT Director

West Seneca Christian School | *West Seneca, New York* **July 2021–June 2026**

- Serve as the school's IT director while also supporting administration and teaching responsibilities.
- Administer Google, Microsoft, and Sycamore platforms and support their day-to-day use by staff.
- Address technology needs, explain solutions clearly, and teach computer courses to users and students with varied levels of technical proficiency.
- Coordinate the master calendar, event scheduling, class scheduling, and regular family communications, requiring careful prioritization and dependable follow-through.
- Partner with the senior pastor in administering most facets of school operations and collaborating on organizational decisions.

School Administrator & IT Director

Latham Christian Academy | *Latham, New York* **July 2010–July 2021**

- Directed technology operations for approximately 40 student and staff computers in a Windows Server and Windows 10 Education environment.
- Maintained the school's computer network and supported workstation, account, software, and connectivity needs for staff and students.
- Administered Google Apps, Microsoft Office 365, and Sycamore School Management Software, supporting implementation and ongoing operation.
- Maintained the school website and social media presence and taught Computer Applications courses as needed.
- Oversaw all school operations, personnel, budgeting, and financial policies, bringing a practical and cost-conscious approach to technology decisions.
- Collaborated regularly with the school board, senior pastor, employees, parents, and students.

PROFESSIONAL EXPERIENCE (CONTINUED)

English Teacher, Discipline Director, & Assistant High School Principal

Frederick Christian Academy | *Frederick, Maryland* **August 1997–June 2010**

- Administered school and student computer networks using Windows 2000 and Windows 2003 Server operating systems.
- Managed school information and online assignment/grade platforms, including RenWeb, SchoolMinder, and Edline.
- Coordinated the school website and email system and administered PBX telephone and voicemail systems.
- Taught computer and other secondary courses and provided technology guidance within a varied school environment.
- Supported scheduling, academics, long-range planning, student activities, and accreditation work as part of the school leadership team.

SELECTED TECHNOLOGY PROJECTS

- **TimeToSpeak** — Designed, developed, tested, and published a classroom-focused iOS application available through Apple's App Store, demonstrating the ability to identify user needs, develop and troubleshoot a technical solution, and support deployment.
- **Slatero** — Designed and developed a multi-device classroom iPad application using local-network communication between teacher and student devices; completed development and testing and submitted the application to Apple for App Store review.
